## Mounting instructions for LED tubes

## • EM ballast based system

Install EMP starter

replacement only

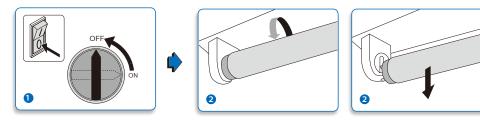

For EM ballast installations please check if a Power Factor Correcting Capacitor is installed in the existing circuit. If yes, please follow the instructions below:

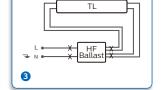

Install the LEDtube

Turn on mains

- $\boldsymbol{\cdot}$  Please simply remove the capacitor if it is in parallel with the EM Ballast
- In case of 2ft/600mm lamps, if there is only one starter in the luminaire for 2 lamps, or 2 starters for 4 lamps, then rewire according to the SAFE rewiring instructions in next section
- The lamp is made of glass material and therefore not recommended to use in food applications or installations that have to comply with HACCP standards.

## · HF ballast based system

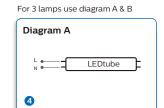

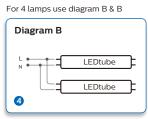

Mains Off

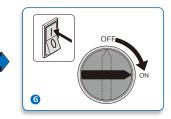

Remove all existing FLUORESCENT TUBES from luminaire

By pass HF

Bypass existing HF BALLAST and rewire according to the following diagrams. Please check the L/N markings on the lamp end and insert the lamp with AC mains supplied to the corresponding end. To install the lamp in the wrong direction will lead to malfunction.

The supplied warning sticker must be placed on the luminaire and must be visible during lamp replacement

Turn on mains

## · New built luminaires

Number of tube Wire according to diagram	
1	С
2	D
3	C+D
4	D+D

Please check the L/N markings on the lamp end and insert the lamp with AC mains supplied to the corresponding end.

To install the lamp in the wrong direction will lead to malfunction.
