UltraEfficient LED

**REAL
PROs
REAL
QUALITY**

Real pros support sustainability goals with high-performance, ultra-efficient LED

Meet the extended Philips UltraEfficient LED range —
our most energy-efficient LED lamps yet

**A-class and
B-class**

¹This icon has been developed by Signify and is used as a self-certification for the Philips UltraEfficient lamps and luminaires meeting the standards of EU Energy Label A or B (lamps) and tier 3 in IEA 4E SSL ANNEX (luminaires).

Step into a brighter, more sustainable future

Many companies today are trying to reduce their energy costs – and their corporate carbon footprint. Did you know that lighting on average represents up to 10% of electricity consumption in buildings?¹

Switching to energy-efficient LED solutions can really make a difference!

Meet our most energy-efficient LED lights yet

Thanks to our cutting-edge technology breakthrough, Philips ultra-efficient LED bulbs, candles, spots, tubes and HID replacement lamps not only offer superior light quality, but also allow your customers to immediately save from 44% to 65% energy compared with standard alternative products.²

Thanks to these savings and the longer service life of LEDs, you can offer attractive payback times! On top of this, the switch to ultra-efficient LEDs also contributes to improved sustainability.

And ultra-efficient LED has something to offer for you too: Although the products require less maintenance and replacement, your customer's higher investment brings you a higher profit per light point!

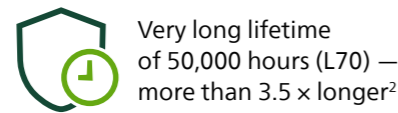

Start saving energy and money now!
Visit the [website](#) for more information.

¹ U.S. commercial sector electricity consumption by major end uses, 2022, according to the U.S. Energy Information Administration [Annual energy outlook 2023](#) (table 5).
² Energy savings of the UltraEfficient products compared with the Philips standard alternative products: Philips MASTER LEDbulb UE 4W A60 saves 50% compared to Philips CorePro LEDbulb A60 60W; Philips MASTER LEDtube UE EELA 1500mm 17.6W saves 44% compared to Philips CorePro LEDtube EM/mains Ultra Output 1500mm 31.5W operating on direct mains; Philips MASTER LEDspot UE 50W EELA saves 45% compared to Philips LEDspot GU10 50W; Philips MASTER SON-T UE 42.8W saves approx. 65% energy compared to Philips SON-T 100W E40 lamps (incl. 10W ballast losses).

MASTER LEDbulbs UltraEfficient

New: Ultra-efficient A-class candles, lusters and dimmable bulbs

More reasons to upgrade

- Ultra-efficient with 210 lm/W
- Very high-quality and comfortable light
- No flicker, reduced glare, CRI 80
- Perfect solution for offices, residential, and hospitality applications
- Available in full range, from 40W to 100W replacement
- Now available in 2700K, 3000K and 4000K

Product highlights

Available in clear and frosted glass versions, the dimmable A-class bulbs convince with innovative features pioneering sustainable lighting.

Thermal

- Optimized filament position for better thermal control

Optics

- Filament orientation designed for most efficient light output

LED design

- High-efficiency phosphor
- Optimally balanced color point (CRI 80) in line with EU Ecodesign light source regulation
- Industry-leading LED chip for most efficient conversion of input power into light output

Driver upgrade

- Optimization of driver architecture and component design to improve efficiency
- More compact size to fit into E-cap

Ever seen a dimmable A-class bulb? Here you go.

¹ This icon has been developed by Signify and is used as a self-certification for the Philips UltraEfficient lamps and luminaires meeting the standards of EU Energy Label A or B (lamps) and tier 3 in IEA 4E SSL ANNEX (luminaires). ² Philips MASTER LEDbulb UE 4W A60 compared to Philips CorePro LEDbulb 8W A60 (referred to as standard LED bulb). The lights are on for an average of 12 hours per day, 365 days of the year (4,380 hours annually). The average energy cost is 0.252 €/kWh according to the latest Eurostat report, and it is calculated for the non-household consumers in Europe, valid in H1 2023, based on 27 countries, all taxes and levies included. The data presented is an illustrative forecast based on a proprietary model developed by Signify to help customers understand the impact of lighting on the environment. Signify's „Green Switch conventional light point conversion model“ uses input from numerous sources, references, and data points (available upon request) to generate a simulated view of a given market's energy consumption, but the accuracy of which cannot be verified. The thousand separator is a comma (,) and the decimal separator is a period (.). ³ Based on the emission factor of 0.3 kg/kWh, Europe average. Greenhouse gases emitted per unit of generated electricity, measured in grams of CO₂ equivalents per kilowatt-hour as of 2023 based on Our World in Data. ⁴ Charging a phone once a day will use about 0.15 kWh of electricity per month and 1.83 kWh of electricity per year. [Click here](#) for more details.

Shining a light on efficiency

When upgrading from standard LED bulbs, your customers can expect a full return on investment in only 0.7 years. A typical restaurant will save € 549 per year by replacing 100 units of 8W standard LED bulbs with 4W ultra-efficient LED bulbs.²

	Standard LED bulb ²	A-class LED bulb
Lifetime (L70)	15,000 hrs	50,000 hrs
Lamp wattage	8W	4W
Total installation savings/year ²		€ 549
Payback period ²		0.7 years

Number of lamps	100	Energy costs	0.25 €/kWh	Lamp cost/year	€ 0.59	Total costs/year/lamp	€ 5.32
Burning hours per year	4,380 hrs	Replacement cost/year/lamp	€ 0.35	Energy costs/year/lamp	€ 4.38		

Compared to a standard LED bulb², a new Philips LED bulb UE can reduce CO₂ emission by 3310 kg over its lifetime³ and its annual energy savings can charge 9 smartphones for a whole year.⁴

UltraEfficient T8 LED tubes

**New:
The first UltraEfficient
MASTER Value LEDtube**

More options, more savings

Welcome the new Philips MASTER Value LEDtube UltraEfficient – your solution for upgrading more price-sensitive customers to ultra-efficient LED. Thanks to the cost-efficient design, high energy efficiency and long service life, the new LED tube can convince with a payback time of less than 2 months, when upgrading from fluorescent tubes (banned since 2023)!²

For even higher lifetimes and energy savings, choose Philips MASTER LEDtubes UltraEfficient – our most efficient LED tube.

Philips MASTER LEDtube UE

Saves 75% in energy costs, compared to fluorescent tubes²

Very long lifetime of 100,000 hours (L70) – 5x longer than fluorescent tubes²

Less than 5 months payback time, compared to fluorescent tubes²

10-year warranty³

Product highlights

Rotatable end cap that gives light where needed

Plastic design makes it truly shatterproof according to IEC 61549 standards

210 lm/W ultra efficiency for an incredible A-class energy-efficiency rating^{3,4}

Philips MASTER Value LEDtube UE

Saves 69% in energy costs, compared to fluorescent tubes²

Long lifetime of 75,000 hours (L70) – more than 3x longer than fluorescent tubes²

Less than 2 months payback time, compared to fluorescent tubes²

5-year warranty

Product highlights

Glass platform with 190° beam angle to ensure light uniformity

185 lm/W energy efficiency, enabling a B-class energy-efficiency rating⁴

High lumen output of as much as 4,100 lm ensures bright light in various applications

New

Cost and energy savings right from the start

When upgrading from fluorescent tubes, your customers can expect a full return on investment in only 4 months. Any application that requires the light to be switched on all the time will save € 11,848 by replacing 100 units of 58W fluorescent tubes with 17.6W ultra-efficient MASTER LEDtubes UE.²

	Standard LED tube ²	MASTER LEDtube UE	MASTER Value LEDtube UE	Fluorescent tube ²	MASTER LEDtube UE	MASTER Value LEDtube UE
Lifetime (L70)	50,000 hrs >	100,000 hrs	75,000 hrs	20,000 hrs >	100,000 hrs	75,000 hrs

MASTER LEDspot UltraEfficient GU10

New: Dimmable ultra-efficient A-class LEDspot

Saves 50% in energy costs²

Very long lifetime of 50,000 hours (L70) — more than 3 x longer²

5.1 years payback time³

5-year warranty

Product highlights

With new dimmable versions available, the Philips MASTER LEDspot UltraEfficient GU10 now offers even more choice on the way to more sustainable lighting.

LED design

- Special LED design with compact size fit for small size spot lights
- High efficiency phosphor
- Best LED system integration design to enable highest driver and optical efficiency

Optics

- Special lens design to optimize light output efficiency

Driver

- Revolutionary driver design boosts energy efficiency, dramatically reducing power consumption
- **New dimmable spots:**
 - Phase cut dimmer detection
 - Leading/trailing edge dimmer
 - Improved dimmer compatibility

Thermal

- Excellent thermal management system for very long lifetime of 50,000 hours

Unlock the potential of greater energy savings

When upgrading from standard LED spots, your customers can expect a full return on investment in just above 5 years. A typical small shop will save € 265 a year by replacing 100 standard LED spots (4.6W) with ultra-efficient A-class GU10 LED spots.²

	Standard LED spot ¹	MASTER LEDspot UE
Lifetime (L70)	15,000 hrs	50,000 hrs
Lamp wattage	4.6W	2.1W
Total installation savings/year²		€ 265
Payback period²		5.1 years

Number of lamps	100	Energy costs	0.25 €/kWh	Lamp cost/year	€ 1.57	Total costs/year/lamp	€ 4.59
Burning hours per year	3,600 hrs	Replacement cost/year/lamp	€ 0.48	Energy costs/year/lamp	€ 2.54		

Compared to a standard LED spot², a new Philips MASTER LEDspot GU10 UE can reduce CO₂ emission by 3750 kg over its lifetime³ and its annual energy savings can charge 5 smartphones for a whole year.⁴

MASTER LED SON-T UltraEfficient

New: Updated size for perfect fit

Saves 65% in energy costs²

Very long lifetime of 50,000 hours (L70)

2.7 years payback time²

5-year warranty

Sustainability meets profitability

Welcome the first ultra-efficient LED SON-T lamps to replace conventional HID lamps. A solution that takes replacing conventional HID with high-efficiency, cost-saving LEDs to the next level. With a quick payback, these lamps offer all the benefits of LED lighting and provide immediate savings for a small investment. They offer the same lamp size and light distribution and can be easily retrofitted into existing SON-T lamps while providing a similar look and feel.

Product highlights

The Philips MASTER LED SON-T UltraEfficient offers all the benefits of LED lighting — and more.

Brighter roads, lighter energy bills

When upgrading from conventional HID lamps, your customers can expect a full return on investment in 2.7 years. A typical installation will save € 6,027 by replacing 100 units of 100W conventional HID lamps with 42.8W ultra-efficient A-class LED SON-T.²

	Conventional HID ²	MASTER LED SON-T UE
Lifetime (L70)	20,000 hrs	50,000 hrs
Lamp wattage	100W	42.8W
Total installation savings/year ²		€ 6,027

¹ This icon has been developed by Signify and is used as a self-certification for the Philips UltraEfficient lamps and luminaires meeting the standards of EU Energy Label A or B (lamps) and tier 3 in IEA 4E SSL ANNEX (luminaires).

² Philips MASTER SON-T UE 42.8W compared to Philips SON-T 100W E40 lamps (incl. 10W ballast losses). The lights are on for an average of 12 hours per day, 365 days of the year (4,100 hours annually). The average energy cost is 0.252 €/kWh according to the latest Eurostat report, and it is calculated for the non-household consumers in Europe, valid in H12023, based on 27 countries, all taxes and levies included. The data presented is an illustrative forecast based on a proprietary model developed by Signify to help customers understand the impact of lighting on the environment. Signify's „Green Switch conventional light point conversion model“ uses input from numerous sources, references, and data points (available upon request) to generate a simulated view of a given market's energy consumption, but the accuracy of which cannot be verified. The thousand separator is a comma (,) and the decimal separator is a period (.).

³ Based on the emission factor of 0.3 kg/kWh, Europe average. Greenhouse gases emitted per unit of generated electricity, measured in grams of CO₂ equivalents per kilowatt-hour as of 2023 based on Our World in Data.

⁴ Average annual distance of one e-bike sharing is 10,000 km (click here for more details). One e-bike annual charging is 225 kWh/km (click here for more details).

You and Signify – a reliable partnership

Signify, previously known as Philips Lighting, is the world leader in connected LED lighting systems, software and services. We proudly market the best lighting brands in the world, including Philips and Interact.

Close cooperation before, during and after projects is important to us. Our local service teams make sure you always get the competent support and information you need. We are closely working with local wholesalers to offer you flexible and on-time delivery – and product availability you can rely on.

To help you stay on top of your game the [Signify Lighting Academy](#) offers a comprehensive range of educational resources for you to grow your expertise and get certified.

Our global brands

PHILIPS

The Philips brand stands for quality and energy-efficiency in light. For over 125 years, Philips products have been at the forefront of innovation.

Today Philips is recognized as the leading brand in lighting.

interact

Interact is the brand of our IoT software and platform that manages smart lighting systems and the data that those systems collect.

Smart, simple and scalable, Interact software can be used in a wide range of application areas, from small offices to entire cities.

We aim to help you work faster, better, smoother. How? Check:

Signify

Driven by responsible innovation

Signify and Mercedes-AMG PETRONAS F1 Team are driven by a shared passion for technology and the desire to push the boundaries of what is possible.

Our innovations in lighting support the team's ambition to become one of the world's most sustainable in sport, serve the well-being and performance of the team, and deliver powerful experiences for fans, trackside and at home.
