

## DESCRIPTION

696 Series LED Trim – 6-Inch Aperture Shallow Baffle - is an integral element in the Halo ML56 LED Downlighting System. ML56 LED System is a series of modular LED Light Modules for use with dedicated 5" or 6" ML56 LED trims. The ML56 LED trims in 5" and 6" aperture sizes are designed to fit Halo, All-Pro and others 5" or 6" recessed housings. The ML56 system is suitable for new construction, remodel or retrofit installation.

## SPECIFICATION FEATURES

696 Series LED trim is a 6-inch aperture shallow baffle for use in shallow recessed housings. 696 Series shallow baffle is offered in White (Matte White) baffle and flange. The shallow trim height provides capability for installation into both shallow and standard 6-inch aperture recessed housings (refer to ML56 LED Light Module specifications for details).

- Shallow height allows use in shallow or standard housings
- Shallow baffle with self-flange
- Wet location shower listed with ML56 LED Light Modules
- Torsion springs pull trim and light module tight to ceiling
- ML56 downlight trims and modules make any housing AIR-TITE™ (ASTM E283)
- For use with ML56 600 Series & 900 Series LED light modules

### Compatible with ML56 LED System of LED Downlight Light Modules

#### 600 Series - 80CRI, 600lm

##### 5"/6" LED Retrofit Downlight Engine

ML5606827 - 2700K  
ML5606830 - 3000K  
ML5606835 - 3500K  
ML5606840 - 4000K

#### 600 Series - 90CRI, 600lm

##### 5"/6" LED Retrofit Downlight Engine

ML5606927 - 2700K  
ML5606930 - 3000K  
ML5606935 - 3500K  
ML5606940 - 4000K

#### 900 Series - 80CRI, 900lm

##### 5"/6" LED Retrofit Downlight Engine

ML5609827 - 2700K  
ML5609830 - 3000K  
ML5609835 - 3500K  
ML5609840 - 4000K

#### 900 Series - 90CRI, 900lm

##### 5"/6" LED Retrofit Downlight Engine

ML5609927 - 2700K  
ML5609930 - 3000K  
ML5609935 - 3500K  
ML5609940 - 4000K
