ICES

Sunchales, Argentina

Upmarket

Set in an upmarket environment, on the access avenue to the Ciudad Green, in Sunchales (Santa Fe), the building has two levels and spans 2,600m² (28,000 sqft). There are 17 classrooms with a capacity of between 25 and 70 students, along with a physics, chemistry and biology laboratory, and computer workshops.

A flexible system

The project's main objective was to have a flexible system that allows dynamic lighting of the educational institution. Interact Pro, an intelligent and programmable lighting control system, was installed.

The system was **energy efficient, simple to implement and had monitoring capabilities.**
