

Jatidiri Stadium

Semarang City, Central Java,
Indonesia

End-to-end

Jatidiri Stadium is a multi-use, 25,000 capacity stadium in Semarang, Indonesia. It's currently used mostly for football matches and is home stadium of PSIS Semarang. In addition to a stadium, there's also a sports building, swimming pool, and other sports facilities.

The stadium is now lit up by 265 sets of Philips Arena Vision 3.5, 85 Tango G4 and 98 UniFlood luminaires with complete control through the Dynalite System.

MPP was chosen by the stadium management as the lighting solutions and controls partner, focusing on end to end execution, from project design and luminaire supply to installation, commission and after-sales support.

"The project has been **expertly delivered** by the team at MPP. The **unique lighting by Signify** and **perfect execution** by MPP has given a **new identity** to the stadium."
