The image shows a modern office environment. Two women are seated at a long wooden desk. One woman, wearing a white shirt, is looking at a laptop. The other woman, wearing an orange top, is leaning over and pointing at the laptop screen. On the desk, there are two computer monitors, a laptop, a water bottle, and two white mugs. A large, leafy indoor plant is positioned behind the desk. The ceiling features several square light fixtures with blue and white patterns. The overall atmosphere is bright and professional.

## Turn dark areas into engaging spaces

Does your project has a space with limited or no access to daylight? NatureConnect by Signify is the answer!

NatureConnect mimics daylight, simulates the sun's daily patterns and replicates a view to the sky, using light recipes that boost energy levels and help indoor spaces feel in sync with nature.

Replace existing luminaires with the NatureConnect skylight to transform windowless rooms while still benefiting from functional lighting that complies with office standards.

The NatureConnect system consists of luminaires and a scene set to provide the automatic day rhythm and different scenes to choose the right light at the right moment. This can be done with an easy-to-use wall switch.

### Benefits of NatureConnect

- Improve well-being with increased alertness and vitality, stimulated by the day rhythm, and office compliant lighting.
- Creates a feeling of spaciousness with the view to the sky.
- Easy-to-use wall switch to select different scenes so users can choose the right light at the right moment.
- Occupancy detection for energy efficiency.
