Increased alertness of employees:

Increasing occupancy of spaces:

Turn dark areas into engaging spaces

Does your project have a space with limited or no access to daylight? NatureConnect by Signify is the answer!

NatureConnect mimics daylight, simulates the sun's daily patterns and replicates a view to the sky, using light recipes that boost energy levels and help indoor spaces feel in sync with nature.

Replace existing luminaires with the NatureConnect skylight to transform windowless rooms while still benefiting from functional lighting that complies with office standards.

The NatureConnect system consists of luminaires and a scene set to provide the automatic day rhythm and different scenes to choose the right light at the right moment. This can be done with an easy-to-use wall switch.

Benefits of NatureConnect

- Improve well-being with increased alertness and vitality, stimulated by the day rhythm, and office compliant lighting.
- Creates a feeling of spaciousness with the view to the sky.
- Easy-to-use wall switch to select different scenes so users can choose the right light at the right moment.
- Occupancy detection for energy efficiency.

Your instant upgrade for a pleasant space

NatureConnect skylights are indistinguishable from a real window by providing a daylight effect and a view to the sky.

Best retrofit daylight experience, placed in the grid with easy installation and good light distribution upgrading your internal space instantly.

NatureConnect offers unique lighting scenes with high melanopic levels elevating the performance of people.

Highlights of NatureConnect skylight

- Best retrofit daylight experience
- Easy installation on the grid ceiling
- The blue sky mimicking a view to the sky
- High melanopic levels elevating the performance of people
- Functional lighting
- Complies with lighting standards (UGR19)

Transform windowless rooms

NatureConnect has made it possible to transform a dark meeting room into a pleasant, colorful, dynamic and light environment that is now preferred by our colleagues."

A good substitute for daylight

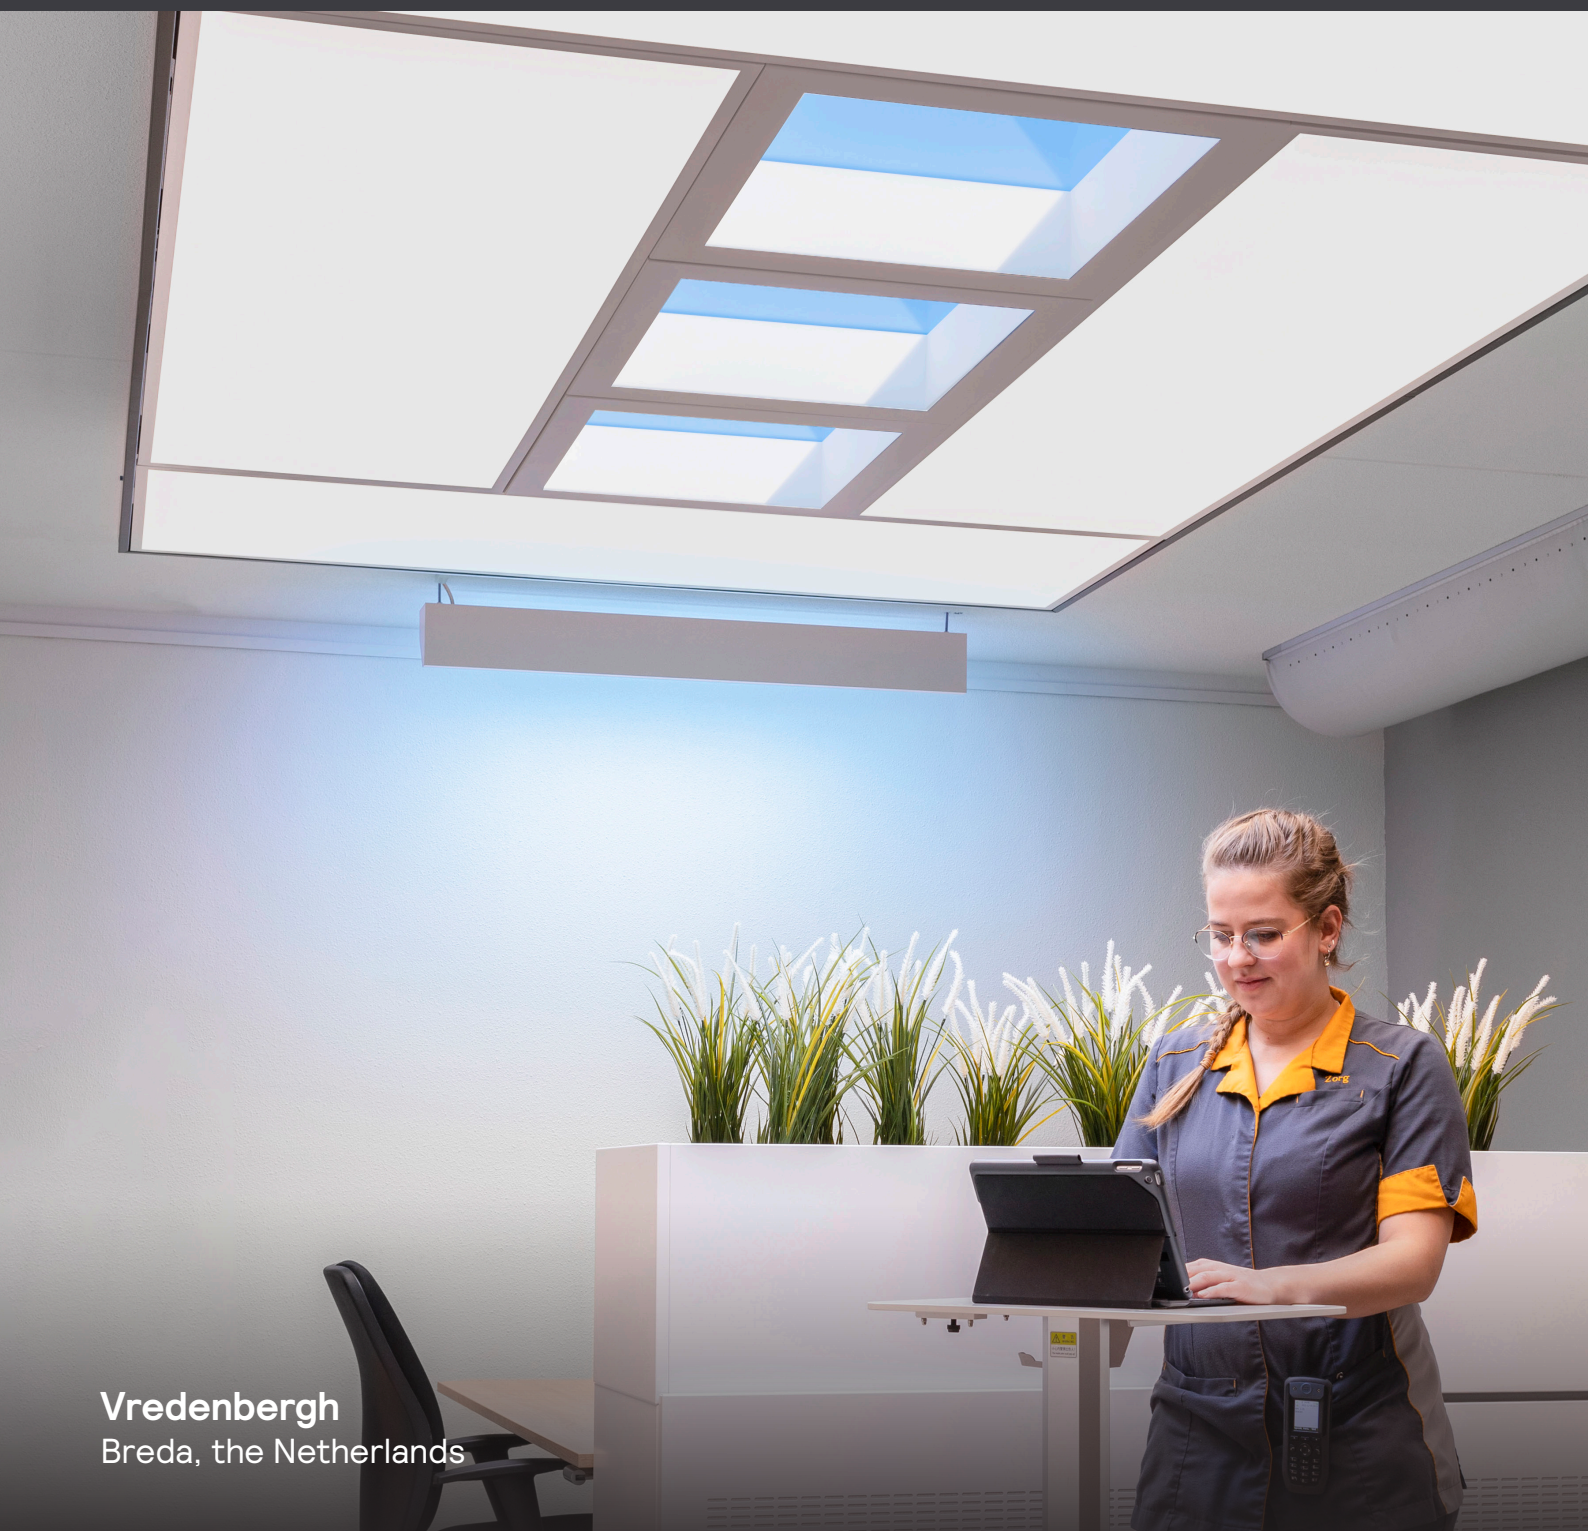

A study conducted in the control room of the CT scanner at Catharina Hospital in the Netherlands showed that NatureConnect is considered an effective substitute for the lack of daylight. Participants missed daylight less in the room with NatureConnect compared to the alternative windowless control room and found the room with NatureConnect to be a better place to work.

A better 24/7 environment

With NatureConnect we want to show our deep appreciation for our nurses and create a more pleasant 24/7 work environment for them."

Mercedes-AMG Case Study

At the Mercedes-AMG PETRONAS Formula One Team simulator in Brackley, UK, engineers spend long hours in a windowless control room, analysing critical data. With NatureConnect, we bring the benefits of daylight indoors.

“

NatureConnect lights really help us stay focused. The day rhythm lights enable us to have a bit more of a dynamic rhythm and helps our energy levels. This not only helps us stay awake, be sharp during the day, but then obviously at the end of the day it helps us to wind down as well.”

Christian Damm
Simulator Development Engineer
Mercedes-AMG PETRONAS F1 Team

Retail Applications

Creating the marketplace

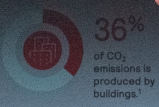

NatureConnect provides a unique shopping experience for our guests. Many of them think that they really look at the sky and enjoy the sunlight."
