

Philips GreenSpace Accent Fixed Gen2: A serviceable and upgradeable accent downlight for retail

GreenSpace Accent Fixed Gen2

With GreenSpace Accent Fixed Gen2, retailers and building operators can enjoy the superior quality of light and market-leading energy efficiency of PerfectAccent optics in an affordable and sustainable accent downlighter. Maintenance and upgrades of the driver, LED and optics is easy and requires only standard tools. Because of this, GreenSpace Accent Fixed Gen2 can support a circular lighting installation. In addition to dimming options, multiple system integration options are available, including wired and wireless. Fresh food LED lighting recipes are available for prolonged shelf life, better visual representation of food, reduction of food waste and increased sales. Check out our Fashion and Food catalog pages to find out more about our PremiumWhite, PremiumColor, Fresh Meat, Rosé, Frost and Champagne recipes.

Benefits

- More sparkle and enhanced eye comfort for shoppers with PerfectAccent optics
- $\boldsymbol{\cdot}$ Extend the useful life of the product with easy maintenance and upgrades
- \cdot The neutral clean product design helps blend in with the ceiling

GreenSpace Accent Fixed Gen2

Features

- \cdot Serviceable and upgradeable with standard tools
- Equipped with state-of-the-art PerfectAccent reflector optics
- \cdot Reduced carbon footprint due to high efficacy
- \cdot Available with fresh food LED lighting recipes and LED flavours
- Wired (DALI) and wireless connectivity options
- Optional front glass (recommended for dusty environments)

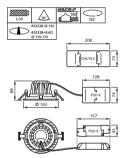

Application

- Supermarkets and hypermarkets
- Large retail
- \cdot Shopping malls

Warnings and Safety

- All photometrical data are calculated without optional front glass. Flux should be reduced by 3.5% when using front glass.
- Cleaning of the optic should be done only with compressed air. Touching the LED or reflector is forbidden. For food preparation areas and areas with high levels of dust, we strongly advise the use of the optional front glass, as it can be cleaned with a dry microfiber cloth.
- During maintenance, the product must be switched off and cooled down.
- The product must be installed out of arm's reach. Manipulating the product when hot is possible only with an insulated glove.
